- 

## PROJECT

### **PEER 2 PEER EDGE TECHNOLOGIES PVT. LTD.**

<https://p2pedgetech.in>

I designed and developed a dynamic website using Angular CMS, focusing on delivering a responsive and user-friendly interface. The project involved custom CMS integration, enabling seamless content management and a scalable structure for future updates. I implemented best practices for UI/UX design, ensuring optimal performance across various devices and browsers.

---

### PEER 2 PEER CRM.

<https://v1.dynamicp2pcms.in>

Led the front-end development of the website using PHP, crafting an intuitive and responsive user interface. The project emphasized cross-device compatibility and seamless user interactions, ensuring a robust and engaging web experience. Implemented scalable design strategies to support future enhancements while maintaining high performance across all platforms.

### JEWELLERY CMS.

<https://ecom-jewellery.dynamicp2pcms.in>

I designed and developed a dynamic website using Angular CMS, focusing on delivering a responsive and user-friendly interface. The project involved custom CMS integration, enabling seamless content management and a scalable structure for future updates. I implemented best practices for UI/UX design, ensuring optimal performance across various devices and browsers.
